

REMARKS

Via this Preliminary Amendment, applicants respectfully submit these new claims, Claims 13-26, and cancel original Claims 1-12 of the "parent" PCT application. With the U.S. issuance of the first-filed '650 application, and upon review of the subject matter currently recited in those claims and in the parent PCT application, applicants respectfully submit these additional claims in order to more fully encompass the scope of the invention. Applicants respectfully submit that these added claims are patentable and respectfully request an early indication to that effect.

Respectfully submitted,

WOOD, HERRON & EVANS, L.L.P.
